📍 **Home:** str. Ion Creanga, nr. 53 Bloc T3, 700333 Iasi (Romania)

ABOUT ME

I am an ambitious graduate student who aspires towards starting a front-end
development career. Although I started my professional journey as a physical therapist, I
found my passion in programming and want to develop new technical and soft skills
alongside a professional team. I have accomplished a couple projects such as an
e-commerce website and an weather app that have given me the desire
to work in the front-end area of expertise.

EDUCATION AND TRAINING

Bachelor's Degree -Physical Therapy
Grigore T. Popa University [2017 – 2020]
